

SCIENTIFIC SPECIALISATIONS during THE LAST YEAR (3A)

Centrale Lille	Centrale Lyon	Centrale Marseille	Centrale Nantes	CentraleSupélec
Data Science and Artificial Intelligence	Mathematics And Decision Applied mathematics, and risk engineering, Firm's decision making	INFO-DoIT Development and Organization in Information Technology INFO-IAM IA, Machine Learning and Data Science	Virtual Reality	Computer Science and Digital Transformation
			Mathematics and Applications	Mathematics and Data Science
Enterprise Modeling and Architecture	Computer Science machine learning, computer vision	ClIMaTHs Mathematics and Modeling for Climate, Earth, Man	Digital City	Internet of Things and Communicating Systems
			Computer Science	
Sustainable construction and materials	Civil and Environmental Engineering Structures and works Environmental Engineering Energy and sustainable building	MECA-M3S Modelization of Structural and Material Mechanics	Civil Engineering	Civil Engineering and Transportation
			Engineering science for housing and urban environment	
			Modelling and Simulation in Mechanics	
Energy and smart grids	Energy On-board Energy Infrastructure energy	MECA-FETES Fluids Mechanics : Energy, Transport, Environment, Health	Propulsion and Transport	Energy
			Energy Production and Management	
	Aeronautical engineering Acoustics and Vibrations, Control of aircraft, Materials and Structures, Propulsion	MECA-GM Naval and Marine Engineering	Aeronautics	
			Ocean Engineering	
Smart Factory	Traffic and Transportation Traffic and environment Vehicle technology	DDEFI Mathematics, Management, Economics, Finance	Robotics	Large Scale Interactive Systems
Sustainable design and production			Industrial Engineering	
			Product Engineering	
Future Networks and Ambient Intelligence		PICSEL Photonics and Innovative Systems	Data analysis and applications in signal and image processing	Physics and Nanotechnology
Intelligent Systems and Advanced Communications Networks			Embedded control and Power grids	
	Bio-engineering and Nanotechnology	GREEN Chemistry, Chemical Engineering and sustainable processes	Materials and Composites	Biotechnology and environmental Engineering
			Digital sciences for Life sciences and Healthcare	
			Carbon Neutrality	
			Doctorate	
			Scientific Challenge 2024	

PROFESSIONAL OPTIONS during THE LAST YEAR (3A)

Centrale Lille	Centrale Lyon	Centrale Marseille	Centrale Nantes	CentraleSupélec
Researcher	Research and Development	Research and Development	Research and Development Disrupt'Campus Nantes	Research innovation / Development / Service
Head of Innovation and Development	Eco-Design and Innovation	Engineering and Design	Engineering for Ecological Transition	Complex Systems conception
Production or operations manager	Technological and Environmental Risks Management	Production and Supply Chain	Manager, Leader, Communicator	Project Management
International Project Manager	Organizational Excellence and Lean Supply Chain			Operation Management
Audit and Consulting	Consulting	Audit and Consulting	International Business Development	Business Analytics
			Business Finance	Sales
Entrepreneurship	Startup and Business Developer	Management and Entrepreneurship	Entrepreneurship	Entrepreneur
		Data analysis, Decision making	Digital sciences for Art, culture & heritage Science and Music Perception and Sound Design Personal Project
